

Gatekeeper Systems' product suite of intelligent cart solutions offers retailers innovative technology for stores to minimize merchandise loss and reduce asset and labor expenditures.

## Cart Management

Managing carts and keeping store parking lots clutter free is now easier than ever. Overexertion is overrated—one in every three workplace injuries is caused by overexertion. Gatekeeper Systems' cart management solutions have been reported to reduce labor hours by 50 percent. The CartManager cart pusher products help make cart retrieval more cost and time efficient.

## CartManager® XD

Employees strain no more with CartManager. The CartManager cart collection solutions make collecting shopping carts a simple task. Retailers benefit not only from the cost savings, but also the reduction of incidences of strain and accidents.

- CartManager XD is the latest cart collection solution in the Gatekeeper family.
- On average, retailers utilizing CartManager XD cart pusher report a 50 percent reduction in cart retrieval labor hours.
- Along with reduced incidences of strain injuries, the automated CartManager XD also offers more control over cartloads, reducing the chance for parking lot accidents.
- CartManager XD+, the high-powered version shopping cart collector, enables more control over larger cartloads. Designed especially for expansive parking areas or parking lots on a grade.
